Synthesizers - FASTLAB2DUO

System description

Describe the incident

Fastlab 181 not passing tests (heater failure)

Solved?

Yes

No

Derived?

Yes

No

To whom?

Yes - Site manager

Yes - Production manager

Yes - QA

Yes - QC

Yes - QP

Others

Who is other?

Production affected?

No

Yes - Totally cancelled

Yes - Partially cancelled

Yes - Delayed

Any comment?

No backup for this module (Vizamyl)

If possible, describe the solution

Heater not working. Check system. Found bad thermoswitch. Found bad thermocouple analog input PLC card. Replace parts and check the heater response with a calibrated thermometer (OK)

If possible, describe the root cause

Bad temperature reading from the card caused over-heating to the oven and damaged the thermoswitch. (Card damaged by radiation)
